Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, February 17, 2016 – 10:00 a.m.

The alliance of united Masters remains faithful to the Sahaj Marg Mission, and this is not about to change. This spiritual path, which is quite special, was planned long ago; it will leave its mark on this time and remain a very strong reference point in the future. The various upheavals that will occur will only strengthen the Mission in its existing structures, well defined and optimised by the incarnate Master.

We support him in his work and projects; he is moving forward, and this is remarkable. Movement creates life, and vice versa. The expansion of this way of the heart delights us, it meets our expectations. Inertia is never good, as it gradually leads to decline. In the future, Sahaj Marg will have a significant impact, meeting the needs of the time. It will bring the necessary note to this song of the heart, so important for the hearts of our brothers and sisters yearning for the Divine.

The Mission is growing. Its egregore produces an unparalleled force, one that cannot be truly assessed by our abhyasis. But they can rest assured, their commitment brings about the best. Sincerity and regular practice magnificently carry the love that inspires the Masters, from those of the past to the incarnate Master, custodian of our

energies and of the Mission's many projects. All in good time. Everything happens at the appointed moment. We all carry this Mission with much love, you can be sure.

So it is.

Babuji
