Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Tuesday, March 15, 2016 – 10:00 a.m.

These messages are authentic, we must remember. They emanate from our united hearts, in this sacred space where the history of our Mission is being indelibly written. Their content is adapted to the current times and they will remain the hallmark of our Mission for a very long time. Three spiritual Masters have, in the past, laid the sacred foundations of this path. The current Master, through his action, confirms the importance of this commitment of the heart, which is very rich in its effects. Adapted to the new era, this way will go very far into the future and will lead our faithful abhyasis to a sacred space where they will continue this unparalleled quest. The duration of an incarnation is short here below, but it sets an important direction for the future, thus allowing abhyasis to achieve many necessary steps on their journey towards the Eternal. Repetition is indispensable – this is the very principle of life here below. It is wise to grasp the importance of these writings and the effect of the transmission they produce on our readers. Thus manifests, in all subtlety, one of the aspects of this spiritual path, which is very active in a world troubled in more ways than one. May all become aware of the importance of Sahaj Marg, of its future in the world and the precious time it saves. When the time comes to take stock, everything

will become clearer to our faithful abhyasis, and our action will thus be all the more effective.

Special blessings to all.

Babuji
