Whispers from The Brighter World

Monday, March 21, 2016 – 10:00 a.m.

Immerse yourself in this ocean of love, where light is resplendent – the light in which the Masters continue their progress towards the most subtle states, so important in their dazzling ascension. Reaching this level of consciousness opens doors onto the Infinite, indefinable in human terms and revelatory of divine powers that are given on a limited basis to the noblest souls, those capable of playing a decisive role in this world. The Sahaj Marg path is very effective in its action; it facilitates the opening of subtle points capable of transforming the being and revealing its profound nature, so far from materiality. Some of our brothers and sisters manage to pass through stages that open new perspectives onto higher states of consciousness whose reality is difficult to detect. This reality, so often mentioned, is still so poorly perceived, due to the overall evolution of a humanity struggling to untangle itself from all that holds it back, the effects of which are so dismaying. The time of transformation will come; it is being prepared, in its own way, you can be sure. Like everything else here below, this is happening very slowly, but in a positive manner, despite appearances. Advancing spiritually is a precious asset for each one, but life is an all-inclusive whole, united before the higher powers, which are very attentive to its transformation. Everything is slow on this planet, which advances at its own pace in this celestial configuration. What will the world of tomorrow be like? Far from what it is today. It

is up to each and every one to prepare it in their own way by conforming with the divine laws.

The best to all of you, who are so dear to us.
