Whispers from The Brighter World

Thursday, April 7, 2016 – 10:00 a.m.

True spirituality is a privileged space where souls in search of the Divine meet and progress. It takes time and effort to reach the goal and especially to become truly aware of this presence in oneself that wants only to blossom. The Sahaj Marg method manages to act upon sensitive points that are most often ignored because they are usually forgotten in such an approach. The current era will increasingly foster a very refined advancement of the divine principles in their many manifestations. Teachings that have remained secret from time immemorial will emerge in human consciousness, opening up to humanity a real and true knowledge, one that promotes the elevation of the soul. Who genuinely cares today? Future times will offer other possibilities. After great turbulences, this world will, to some extent, access true knowledge, the kind that opens the secret doors of a privileged space where refined Great Beings are preparing a future more conducive to the expansion of the soul, its beauty, in a context very different from that of today. Everything changes and will change completely in times to come, out of necessity. The divine plans provide for it; great and beautiful achievements will occur, changing the face of the world. Blessed are the pure in heart – they will see the light; to the higher powers, nothing is impossible.

So it is.
