Whispers from The Brighter World

Saturday, April 23, 2016 – 10:00 a.m.

Step by step, the Sahaj Marg Mission is advancing, carried by the Love of the Masters attentive to an action upon hearts receptive to its benefits. Time does its work, bringing the human realm opportunities to advance towards a knowledge necessary for realisation and the evolution of all. We are happy to observe its effects; here, our view of human beings as a whole is very broad. Sahaj Marg creates a distinctive vibratory space and is active in more ways than one. It is not easy to define, but sensitive beings perceive it and take full advantage of its benefits.

Souls that rejoin us unite here to perfect what they started on Earth, and they strengthen it beyond their expectations.

Nothing is lost in such an approach; time devoted to deepening it further and further allows one to develop a very refined sensitivity. It generates the best in this process, which is uncommon in the mazes of faith and capable of influencing, more than decisively, this remarkable spiritual journey. You can be sure that more and more beautiful souls are advancing on this most special path, one that will mark present and future times in the most beautiful manner. Such are the divine choices – they provide, in a timely manner, what is suitable for a substantial expansion of consciousness.

To all, the best ever.

Babuji
