Whispers from The Brighter World

Tuesday, April 26, 2016 – 10:00 a.m.

This long journey of messages has left its mark on your heart in the most beautiful way; your heart loves in a state of serenity, quite simply. These uncommon contacts are of great importance to it, and to us as well.

Our dear scribe has produced a considerable work that is historically unique. Our great Parthasarathi emphasised this enough during his time. Our Mission benefits from this contribution. Books are one thing, but these writings are different in many respects.

They will have a prominent place in the future. They carry a special energy whose effects we can measure over time. Nothing is too good or too great for this Mission, which is so close to our heart. It started in a small way, has expanded and will increasingly stand out in terms of its importance and the benefits it generates. So much ugliness and violence are developing here and there, and for no good reason, while a space of beauty and wholeness could fulfil so many beautiful souls who do not know themselves. Will this time ever come? We hope for it and are fervently working towards it.

Each of our abhyasis, through their practice and sincere commitment, participates in this planned evolution so decisive for the transformation of humanity. To dream of a better world is not utopian. Precedents have occurred across all of creation. The multiplicity of worlds is striking in its immensity and diversity, and full of planets where perfection prevails, you can be sure. All levels exist, and this probably creates a

kind of balance in the whole universe. We have our place in it, by divine grace. It is up to you to benefit from this opportunity – Sahaj Marg, a real boon for all of you.
