Whispers from The Brighter World

Monday, May 9, 2016 – 10:00 a.m.

See only the beautiful, the good – that which enchants your heart and delights your soul, so thirsty for heavenly fulfilment. These messages help much more than you think; you cannot imagine the benefits they provide. They will take on more and more importance in our Mission, you can be sure. Your isolation, your sufferings, enable this work, which would not otherwise have the same scope and such an impact on our abhyasis. The Mission thus enjoys many benefits, as do the incarnate Masters, in their own way. Sahaj Marg is a whole, coherent and effective in its results.

Its action has not finished expanding throughout the world. It meets the current needs of many beings calling for an energy that is redeeming beyond measure. On the material plane, substantial efforts are required to establish such a work, of which time will clarify the parameters and support the action, going beyond human imagination. Divine grace supports this Mission, wanted thus for a long time, to meet current needs. Humanity is growing in number and in needs of every sort, but an immense void is being created because of a growing negativity that is destabilising for human beings.

Rediscovering inner peace and harmony requires an action conducive to the blossoming of the whole being, in which spirituality finds a prominent place.

Special blessings to all.

Babuji
