Whispers from The Brighter World

Monday, May 23, 2016 – 10:00 a.m.

The Mission is growing, and it will continue to do so for a very long time, until it has reached its strong point, its true objective, which will be revealed over the course of time. May these words spark the attention of our brothers and sisters and their motivation to act with determination and utmost commitment, if such is not currently the case. They will not regret it, you can be sure; Sahaj Marg, in its apparent simplicity, is rich in multiple actions. Everything is done very subtly, in the silence of the heart where the best takes place; there lies the mystery, the strong point of this method – no declamations, no chants, no grand rituals, but the best is accomplished, rest assured. We repeat ourselves, but this is sometimes necessary. Human beings need to be reassured, supported and strengthened in their journey and in the unfolding of their lives.

Things do not always go as planned; the Masters themselves must undergo many trials and accept what fate has in store for them at all levels. Sometimes they must change their plans to cope with events. Such is life. Nevertheless, what must be is realised, particularly with respect to events of importance.

Uniting through the heart with the incarnate Master, sincerely and totally, amounts to doing so with all the Masters, who follow and truly support him in his action, since it is inspired by the strength of our own action and, moreover, by the strength of our love for him and for the entire Mission. The Mission is growing, and

we rejoice in that. We have sufficient strength and love to support it in the best way possible, always. Special blessings.
