Whispers from The Brighter World

Thursday, June 9, 2016 – 10:00 a.m.

These messages flow into your heart, coming from our united hearts, is it necessary to reaffirm it! This principle is not common, and yet all the great spiritual movements of the past have left a strong and definite imprint with writings of this nature.

This fact is not new, it has always existed and has been recognised at its true value, in accordance with customs and circumstances. Here, we have at our disposal a space of peace and Love – this is quite appreciable.

Many beautiful souls rally to this way of the heart, which is unique in certain aspects. Many calls rise towards us; humanity is suffering in more ways than one. The human being has never had an easy life, but present conditions are such that more and more calls rise towards us [from those] seeking a safe haven to quench their thirst for the Divine. It is growing, far beyond what is visible in human terms; having within oneself a space of peace and love is a real privilege. To access inner peace, serenity, is this not the most beautiful conquest of the human being. Humans have this privilege, unlike all that lives on this Earth, struggling with countless difficulties. The conquest in oneself of this uncommon love is a rare blessing. The great mystics of the past have shown the example of their detachment, of this inner peace that carried them against all odds. Nothing has ever been easy for anyone. The greatest Beings have suffered a great deal, no one is ever spared – such is life, the stakes are worth it.

This is the way it is.
