Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, September 9, 2016 – 10:00 a.m.

Let yourself be carried on the wings of Love; it emanates from our hearts and from this power that guides them on this uncommon journey. Our Mission benefits from strong assets, including an incarnate Master who uses current means of communication to reach all our brothers and sisters, wherever they may be in the world. We did not have this privilege; nevertheless, Sahaj Marg has made its way, to arrive at the present stage – a very significant action, you can be sure. What we promise comes to fruition; this is not a matter of beautiful images but of a reality that will mark this time. The action of the current Master will allow a definitive consolidation of what already exists. In the future, the ashrams will become points of light in this world of darkness, as we know it. They already hold a significant place, and this will only grow, as will the thirst in people's hearts for the Divine. May all our brothers and sisters be strengthened in their quest. We ensure that the best is offered to them, with all our blessings, once again, for a just cause.
