Whispers from The Brighter World

Friday, December 9, 2016 – 10:00 a.m.

This 2015 message* from our dear great Parthasarathi is indeed important. It specifies the uniqueness of this place where thousands of messages have been written under our inspiration, for the good of the whole Mission and of so many hearts that are so very receptive to our words. This fact is not insignificant – it will mark the history of Sahaj Marg, having otherwise many positive aspects, the importance of which will be revealed over time. The Mission as a whole is evolving and adapting to the current reality in order to benefit the greatest number. Our faithful abhyasis are particularly watched over. Helped according to their inner call are the newcomers. All are progressing in their own manner; we cannot force anything, and yet we can see beautiful souls advancing in a remarkable state of delight. This acquired asset is oh so precious; it takes shape from life to life and is a sure value by virtue of its uniqueness. All the Great Beings of the past, having themselves initiated very important spiritual paths, appreciate and highlight the very positive effects of Sahaj Marg.

All of us here come together and support one another in our respective actions – this, for the greatest number of human beings who are suffering for multiple reasons inherent in the material world. Blessings to all our brothers and sisters.

Babuji
