Whispers from The Brighter World

Sunday, January 15, 2017 – 10:00 a.m.

This story of messages will not only remain unique among its kind, but also mark this Mission – definitively. Why can we not repeat what is and will be. So many imitators are already in action – how to curtail them – egos are strong in this instance, such is the human race. Isn't the essential thing the fact that these messages exist and help a great many of our brothers and sisters calling for this kind of teaching.

Each of the important paths that has left its mark on time over many centuries relies strongly on this form of practice.

Thus we 'transmit' in our own manner a particular vibration characterising 'Sahaj Marg'. This way of the heart offers numerous resources, some of which will reveal themselves in the future, when the opportune moment comes. Here, at our level, we thank the 'divine power' for what it has offered us, so special in nature. This privilege is appreciated and will be more and more, you can be sure. Minds are opening up to this extraordinary transmission which will reveal in the future all the subtlety of its action.

Ceaseless blessings to all.
