Whispers from The Brighter World

Monday, February 20, 2017

Time will lend to these writings an importance that cannot be expressed today. The world of the Spirit as you conceive it is preparing a grand future for this Mission, adorned with the most beautiful lights; such is the divine will. Our very dear Kamlesh is prepared to accomplish the best possible. He does not himself imagine the results produced by his action; they are numerous and unprecedented at this level. The hierarchy of Masters assists him happily; thus is being put in place this heavenly pact to lead humanity to the peak of its spiritual expansion here below.

Blessings to all.

Babuji
