Whispers from The Brighter World

Wednesday, March 29, 2017 – 10:00 a.m.

This heart-to-heart meeting with your dearest son Kamlesh was so very blessed. In certain circumstances, words have a very precious force of action, much more than it would seem. Sahaj Marg will continue to grow; the ashrams are points of light in the world, and their benefits will bring unprecedented transformations.

Everything will be done in our path to broaden the field of action of the elements that are in place. Getting to the essential – that is the important thing; may all our abhyasis realise how much ground has been covered within such a spiritual movement.

India is and has long been the high place of spirituality, and this will not change. Every step in a life is decisive, it defines the destiny of each person; doesn't everything have its raison d'être. The passing time gives colour to the elements that are essential to building a life, which is governed by the laws of karma – laws that cannot be circumvented.

Special blessings to this entire Mission, carried by our prodigious son Kamlesh. This is how it is.
