Whispers from The Brighter World

Saturday, April 1, 2017 – 10:00 a.m.

There is a time for everything; that of the discovery of spirituality, within oneself, is the most important. This space is so very rich in effects, difficult to ascertain in this planned advancement.

Can human beings truly become aware of this potential that inhabits them – when this occurs, truly, an immense step is made for them. Engaging in this discovery requires a certain attention, a profound vigilance, that connects the 'being' to the best of him or herself. Here lies one's true richness, that which one cannot lose, since one is connected to this higher power. There lies harmony, profound peace, that which the great mystics seek above all else. Having arrived at this stage, when they understand the extent of their discovery, they wish but one thing – to share it with other great souls. This mystical union is unique and the bearer of the greatest benefits. In Sahaj Marg it is characterised by a unity that is unprecedented in its action.

May all strongly motivate themselves to attain this level, sacred and unique in its effects. May the best be for all our brothers and sisters, under our special blessings.
