Whispers from The Brighter World

Wednesday, April 5, 2017 – 10:00 a.m.

These writings will leave a legendary mark on our Mission. The years will give the latter all its importance. Our system is unique – the practice really provides benefits that add up over time.

Do our brother and sister abhyasis truly realise it! That is how it is, one could say. All that is divinely intended and built takes on a significant place over time.

Thus are these laws; inescapable indeed. What could the smallness of human beings achieve in the face of this unparalleled force of action? The Sahaj Marg Mission was built little by little; each of the Masters left a mark and our dear great son Kamlesh will also be very productive in this respect. We appreciate his way of seeing things, of conceiving that which is currently being built up and which will considerably influence the future. Everything is being prepared in great detail – but what results will be obtained! Our greatest happiness is to support him, and our love greatly provides for it. All is well in the 'kingdom' of the Sahaj Marg Mission.

Blessings to all.

Babuji
