Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, April 10, 2017 – 10:00 a.m.

My dear daughter, your regularity and personal commitment have enabled these messages to become a real asset for our Mission, and so they will remain. We are following this Mission and carrying it with so much love. The successive Masters have aided in its construction, allowing it to take its place as is fitting. This high place of Hyderabad carries a magnetic charge that constitutes a real attraction. Our dear son Kamlesh has made the right choice. Moreover, he will know how to give it the importance that is appropriate. This place is rich in many respects; the future will reveal its uniqueness. The sources are a part of it; they will reveal themselves in due course.

India is and will remain the strong point of spirituality in this world, the central axis of Sahaj Marg. This path still has much to reveal; its chosen Master will dedicate himself more and more to bring it to the best of its action.

To all, peace and bliss on the blessed path of Sahaj Marg.

Babuji
