Sunday, July 23, 2000 - 8:00 a.m.

My dear son,

"The Mission opens up its path in the world; nothing will stop it. Don't worry, my son, we see to it and we help you. As far as France is concerned, we have expressed ourselves on the unfortunate reasons that slow down its progression.

"Maybe you should cancel some steps of your journey, one of which is Augerans, as that is more particularly under surveillance. It is necessary to wait until this 'anti-sects' wave calms down. We know which forces foment it, and they are powerful, but nothing is lost. What must be, will be; so God wants it. Pure and determined hearts will see where the truth is. That is all we can add on the topic that is beyond common sense. As for the circumstance, do the best, as you always do; we are close to you. Facts of this kind are unavoidable in a mad world where true values are not recognized as they should be. Abhyasis should understand, motivate themselves well, and be more involved than ever."
