Whispers from The Brighter World

Friday, April 21, 2017 – 10:00 a.m.

Let peace engulf your heart; daily worries take up far too much space in a life, but so it is. Interiorising oneself remains the surest means of accepting and enduring what life imposes, and this in many circumstances. The practice of Sahaj Marg helps clarify situations, which often resolve themselves much more easily. Sahaj Marg has become a great movement – it will unite hearts more and more, carried by this powerful wave that allows a deep grounding, much more than it would seem. It is not easy to always understand what is so important to the human being, so many aspects are to be considered. Our way lays solid foundations that will take on, in the future, great magnitude. Thus will be realised the heavenly plans, the scope of which will astonish the greatest number. Carried they will be, with a light heart, for having received so much grace.

So it is, dear brothers and sisters.

Babuji
