Whispers from The Brighter World

Saturday, April 22, 2017 – 10:00 a.m.

Sahaj Marg will amaze in the future; it has long held secrets that will be revealed at the opportune time. The Egyptians were very advanced in knowledge; many truths will emerge into consciousness and generate an unprecedented progress. Our path itself will reach a level that is being repositioned today to foster a desired expansion long foreseen by the Hierarchy of Masters. Many events will take place and bring to light what has been planned for a very long time. An eternal beginning is necessary for the higher powers to accomplish what must be. They cannot deviate from these principles; none can evade them.

To all, faith and perseverance; time will prove to be the Great Magician, able to astonish the poor human beings who are attentive to the creative power of the Spirit. This is how it is.
