Whispers from The Brighter World

Monday, April 24, 2017 – 10:00 a.m.

Everything is prepared slowly and achieves the desired goal when necessary. Already this high place of Hyderabad can inspire people to dream. It is a focal point for projects and will indeed become the Mission's flagship ashram. It is vested with a special charge – this will astonish and reach its full extent in the future; thus will our wishes be fulfilled concerning this great project. It will surprise with certain aspects that will manifest in the future. Our dear great son will do what is fitting so that everything falls into place, in accordance with the divine plans.

The greatness of this path will amaze, its action will intensify and lead to the best, as desired by the hierarchy of Masters who are very favourable to it. The breadth of its action will amaze. Such is life; to the divine powers nothing is impossible.

May the best take place and facilitate an unprecedented expansion of this way of the heart.

To all, our blessings.

Babuji
