Whispers from The Brighter World

Tuesday, May 2, 2017 – 10:00 a.m.

Every birth anniversary – it is good to note – brings together the Masters and strengthens the 'egregore' of our Mission. These are important moments that fulfil hearts fervent to love.

They are not lacking in this beautiful and great way, whose beneficial effects time accentuates. Many beautiful and great things are falling into place so that 'Sahaj Marg' can truly establish itself in the world. Our dear and great 'Kamlesh' is inspired, and that for the general good; his conception of things differs, yet it suits the present time.

This birth anniversary, once again, has generated remarkable results, these days of remembrance and action for the best there is.

To all, faith and perseverance so that the best can be accomplished.

Very special blessings during these blessed days that come to mark this beautiful and great way of the heart. So it is!

Babuji
