Beloved Master
Revered Babuji Maharaj

Friday, May 14, 1999 – 8:00 a.m.

This new sanctuary of the Mission is amongst the most charged places in India.

Henceforth, we are on the list of the high spiritual places.

It is the culmination of all the foundational work since Venerated Lalaji, by divine grace, gave back to us this ancient system for the transformation of the human being, by adapting it to our time.

You will have witnessed the birth and growth of the movement that must mark the coming century. Rejoice!

There is no more room for error with regard to the responsible structure at every level.

We need very motivated abhyasis in whom we can have full confidence.

The most difficult thing is to be able to control some egos often hidden by great qualities.

We cannot control everything in the minutest detail, hence the situations of friction that you know. On the whole, mechanisms are functioning well, but in the coming months my son will have to continue to review the organization of the Mission in certain countries.

*We trust him fully. He is a man of action who has business sense. He is unbeatable! He has once again proven it with what he has just achieved in Manapakkam.*

*You have a Master with multiple gifts who still has much to do.*

*You too set to work, all of you, in your own way.*

*Babuji*
