Whispers from The Brighter World

Friday, June 18, 1999 – 10:00 a.m.

Don't focus on the number of abhyasis; have I not told you all before, that Sahaj Marg will have to be purged one day?

Have no fear of that. The number of our associates in the world is increasing.

Those who are not motivated drop off, which is preferable for them and for us.

Those who really want to move ahead – and there are many of them – do not have to linger over the statistics of this or that group.

It is the personal condition of each one that matters, and the benefits they derive from it.

This movement is inevitable and necessary, it is in the nature of things; humans are naturally changing.

You who persevere, who advance, for our greater joy, we see your efforts and we help you in your approach.

We are beside you all in trying moments.

We inspire you. You may not necessarily perceive it, but we are there.

The road seems long when the goal to be reached is far off.

Do not see it this way; you have a Master who leads you towards the ultimate point, and you will get there. Be confident and surrendered to his love.
