Yes, I am in you, in a way, for a specific work which you will understand later; never mind, go your way.

Open your heart further, let it express itself, do not always curb its manifestations.

You all are unaware that you live in a sad society where humans find it more and more difficult to communicate.

Many other countries where there is great misery manage to live better, in a way. You live in a very hard and dreary world where life, by and large, cannot satisfy you.

You are like houses where the windows, the shutters and the doors are double-locked.

Open yourselves. Let the light come in, without us having to break in.

Your way of life, of instruction and education, frightens us, because it is not easy in this context to reach your hearts.

Let them open up, express themselves and live, so that the spiritual, this predominant aspect in human beings, can blossom.

Think about it; you are all in the system and you don't even realize it.

We want only to help you and not to criticize you.

It is up to you to see and act if you deem it worthwhile.

That is all.
