Whispers from The Brighter World

Monday, July 12, 1999 – 8:00 a.m.

We are very happy to see these messages printed. They are precious and must touch hearts, more than some of my writings, which are sometimes difficult for abhyasis who are not inclined towards this kind of reading. These contacts will cause many commentaries, it is inevitable, the rationalistic minds will be critical. They will only have to understand that an important element of another world is out of their reach. While following a spiritual path, they will become aware of their deficiencies on this issue or they will reject this possibility altogether.

The same is true for what is not perceptible by all. By rejecting them, they will miss out on a simple teaching that addresses the heart.

With the vibration emanating from these messages, they will lose the benefits of a special and subtle transmission.

One cannot force minds to open. Others will take advantage of these messages and know how to derive all possible benefit from them. It is time, now, for minds to open up to this reality, God wants it so. Humanity must open its eyes on this 'Beyond' with which some beings can communicate. It is not new and has been happening since the dawn of time. The time has come when ignorance in this matter must, little by little, disappear. It will take a long time. Human beings are often stubborn; they swallow any foolishness and deny truths. It is not possible to enlighten them on this subject by force. They must progress in their understanding.

Be happy, you who have already taken this step.
