Whispers from The Brighter World

Saturday, July 24, 1999 – 10:00 a.m.

We have already talked about how my son's visit to Augerans will be a blessing for you all. If possible, do not miss such an opportunity of going towards him. We do not ask you to go at all costs, creating conflicting situations with those around you, or putting the family finances in severe difficulty.

In Sahaj Marg, we are far from from being so rigourous.

A heart that suffers far from its Master is not abandoned. Certain life circumstances are such that not all abhyasis can do what they want, for various reasons. This is very understandable.

There are insurmountable difficulties that we easily accept. We are not tyrants, you are not in a 'sect'.

In Augerans or at home, it is the sincere union of your heart with the Master's heart that counts.

If such is the case, you receive what you would on site.

Neglect is another matter. As we have already said and repeated, we do not force anyone. We propose an effective system. Many have recognized it as suitable to them, and we are happy about it.

Generally speaking, do what you can, but whether you are by Master's side or not, let Love be in you and manifest itself towards him and in all your life's actions. It is imperative to properly specify things. You have our blessings.
