Whispers from The Brighter World

Tuesday, January 19, 2016 — 10:00 a.m.

The various Masters chosen to serve this Mission have brought to it what was needed at the time. Each of them has left his mark on it in order for it to become what it is today and to allow our dear successor Kamlesh to foster its expansion — an expansion that is important and, one might say, unprecedented. All these prospects are truly cause for rejoicing. We follow his actions with interest, inspiring him when necessary. He was not chosen in vain. The monitoring of this way of the heart is important. This path can help a great deal in the current environment — one that is disturbing for humans. This way allows abhyasis to go towards the Infinite and new horizons, a fact that should not disturb or change their current daily practice.

"Sahaj Marg will surely not stagnate in its basic principles. It will adapt and meet the expectations of our aspirants who are truly seeking the Divine; this aspect should be given priority. The ultimate goal of a life with its many repeated incarnations is to perfect that which already exists in order to reach a subtler level of evolution that is in line with the new era. Standing still does not help one progress. An ardent heart aspires to rise, to be united even more with the Divine, in the manner which we propose. It is effective. The brothers and sisters who were committed on Earth to this system, and who have joined us, would like to testify to it, and they do so in their own manner, you can be sure. Their spirits are very active, both for their own good and that of the whole Mission.

"May all be blessed and strengthened accordingly."
