Whispers from The Brighter World

Monday, January 25, 2016 — 10:00 a.m.

This long series of messages is a real treasure, you can be sure. You were not chosen in vain; a very subtle bond unites you with the heart of the Masters, through past lives with each one of us — a fact that constitutes a very special asset. One day, when you come and join us, you will understand the underlying reasons for this. Now, the future of the Mission is being built; we can see it grow and establish itself definitively as a far-reaching spiritual entity in this world of matter. Hyderabad, as we have often said, will become its high place, charged with vibrations capable of working wonders. We are already showering it with a great deal of attention. Our dear and great son Kamlesh will make the necessary decisions to see that it becomes the sacred sanctuary of Sahaj Marg. In the future, after many changes have taken place here below, it will have a great impact in the world. Human beings will become different and they will approach spirituality differently than they do today. Minds are changing in a good direction despite all the grossness and unconsciousness of a large number of people — those who have not grasped the importance of a spiritual journey that can allow them to move forward for the general good. Everything in its own time. Let us consider only what is essential: the ceaseless work of the Masters who are united in the service of a noble cause, that of human evolution.

"Blessings to all."
