Whispers from The Brighter World

Saturday, January 30, 2016 — 10:00 a.m.

Here begins this extraordinary contact that benefits many abhyasis. By reading our words, they can be sure of receiving a very subtle and significant energy. In its own manner, grace spreads throughout a spiritual path such as this, a path that is innovative in more ways than one. The commitment of the heart, as we have repeatedly said, remains paramount. It allows one to make so much progress through this labyrinth of the sovereign Spirit. The egregore created in this Mission will assert itself over time, its efficacy continuing to manifest in the future. The new high place of Sahaj Marg will be particularly charged, our abhyasis receiving from it much more than they would think possible. That prospect delights us. The alliance of Masters is so very attentive to what is being built in Hyderabad, rejoicing at such a treasure for our Mission. It will be consecrated to the full extent it deserves; our dearest Kamlesh will ensure that it is provided for. He has the necessary capability to act, and the skill to carry out this work, one that will be decisive for the occasion. He has our complete confidence — this is nothing new — and we expect still more from him. We inspire and carry him with so much love. It is not easy for him to assess how much we support him. In human terms, it is not always easily understood by all. Old habits must be overcome, for the general good of the Mission. Its expansion requires another approach, adjusting as needed to what already exists in order to allow it to grow even further. Our endless blessings contribute to it; this is how it is."
