Whispers from The Brighter World

Wednesday, February 3, 2016 — 10:00 a.m.

There is a time for everything in life. The time of interiorisation and self-discovery is an important stage, revealing a deep aspiration for the Divine and, in a certain way, the real purpose of an incarnation. Each incarnation provides a missing element in terms of an experience — whether good or bad, it can be decisive for each person's progress. Following a spiritual way illuminates the path and leads to the necessary action — action that is capable of generating the best by saving valuable time. We wish to encourage you all to be truly committed to this rather unusual approach, one that brings about real changes. Whether they are visible or not, they produce the best. Such achievement in one's life saves a lot of time — the vibrations of the whole being change and carry a person differently. Over the years and with experience, one's path is illuminated, allowing one to go where needed while avoiding a number of mistakes. Mistakes are inevitable in the course of an incarnation, but they can be reduced through the development of a certain wisdom that is decisive in more respects than one.

"In spite of its apparent simplicity, Sahaj Marg acts on sensitive points that are, to some extent, capable of releasing a person from the burden of karma. Perseverance and sincere action produce significant results. It is so gratifying for us to witness the benefits of it.

"May all be truly motivated and achieve the best, the ultimate goal."
