Whispers from The Brighter World

Friday, February 5, 2016 — 10:00 a.m.

Transcend this current life which limits you [our medium] to the basics, and come rejuvenate yourself close to us — we who are so attentive to our dear scribe. Everyone has a role in our Mission; yours has long been planned, and all is well this way. Our very dear, great son Kamlesh sometimes feels quite alone at the helm of the Sahaj Marg Mission. The most important roles are therefore assigned in advance, for good reason; we too experienced this situation. With regard to the current Master chosen by us, we are attentive to him every day and provide him with the best possible inspiration. Such a position is not always easy to assume, but it is highly productive and all in all extraordinary. Each one of us in our own manner has left our mark on this way of the heart. It must advance much farther in order to take its place in this human world in a magnificent and definitive manner. It is already well established, and Hyderabad will be its most sought-after high place, one that will carry an extraordinary energy. We have been applying ourselves to it for some time so that this path may soon reach the pinnacle of its power of action, giving us much cause for rejoicing.

"The birthday celebration will soon bring together a large number of abhyasis. Not everyone will be able to come, but nobody will be forgotten, because everywhere around the world it will be taking place in its own way. May the best be achieved for all, through the power of our love. Such are our strongest wishes."
