Friday, September 29, 2000 - 10:00 a.m.

You cannot imagine the impact Sahaj Marg will have in future centuries.

"You are the pioneers of a system, which will effectively meet the needs of generations to come. Many beings fond of the Absolute, will seek a spiritual practice ideal in their eyes, and not related to any religions. Far from rituals and outdated dogmas, this way will correspond to the major aspiration of those who are called. Simple and pared-down, it will suit exactly the mentalities that will evolve and free themselves from erroneous principles. You, the most determined ones, fervent followers of our teachings, you are preparing the ground for this future apotheosis.

"Your steadfastness builds a strong edifice. The benefits of this way can be felt in many countries of the world where it will be established firmly. Like a river quenching the thirst of requesting souls, it will keep running and growing bigger, amplified by an ever-growing call."
