A Fourth Revelation

Be careful not to judge your brother; by doing so, it is you that you judge.

"By placing yourself above him, you claim credit for yourself that exists only in your mind. Are you perfect? What is so glorious in your life achievements?

"If you could see yourselves in the mirror of time, you would see that you are not of a higher essence.

"You have your own shortcomings, which you do not admit to as you should. Therefore, please, with respect to other people's gaps, be humble and try to understand and help instead of judging.

"It is always time to keep a rigorous check on oneself and to remedy what is not correct. You will then look at your neighbour with compassion and will react differently, if your own behaviour has changed.

"We come back to this topic once again; it is essential. It is necessary to get rid of these burdens that delay your progress.

"Whatever obstructs the path must be taken away. You will advance lighter and happier towards the light that is at the end of the road."
