Whispers from The Brighter World
A Fourth Revelation

Wednesday, October 25, 2000 - 10:00 a.m.

Yes, my daughter, the wheel spins. India was not always a very poor country. Its present advantage resides in the concentration of a spiritual wealth that illuminates the world.

"Life is movement and is eternally repeating itself. All peoples knew periods of greatness, true greatness not being material wealth.

"Very brilliant civilisations, unequalled to date and in all sorts of domains, dominated the rest of the world.

"Entire continents have been engulfed, though this remains a fable for a lot of people closed to this kind of revelation.

"It does not matter; it is a fact, but one which is not taken into consideration in your present incarnation. You must manage it as best you can; you now know all the rules from which you cannot escape.

"It is up to you to act accordingly."
